

TÜRKİYE PENETRATION

3% → 41%

of the cattle herd insured, 2013 → 2024 (TARSİM)

TÜRKİYE 2025

10.0M head

insured cattle; pool loss ratio 77%

US LRP CATTLE

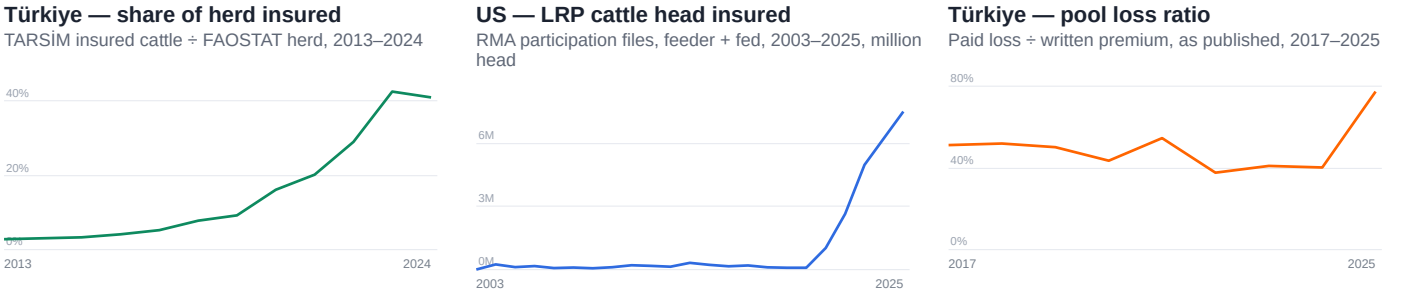

0.2M → 6.2M

head insured, 2015 → 2024 (price cover)

US SUBSIDY SHARE

13% → 35%

of LRP premium, 2015 → 2024 — precedes the take-off

MARKET	SCHEME & PRODUCT	DATA
Türkiye	TARSİM — subsidized pool; mortality & disease cover	Annual reports 2016–2025, key-figures tables; zero overlap conflicts
United States	USDA RMA — subsidized price (LRP) and margin/revenue (DRP) cover	Participation files; layouts from RMA's own documentation; LGM omitted (unmapped)
Spain	Agroseguro/ENESA — subsidized pool	No machine-readable public series located; excluded, declared
Germany	Tierseuchenkassen — compulsory public epidemic funds	Not insurance; kept as a separate category, not zero

READING

Different products. Mortality cover (TR) and price cover (US) are never summed or ranked against each other; each series is compared with itself over time.

Loss ratio. Paid loss (TR) or indemnity (US) ÷ written premium, as published — unitless, immune to currency and inflation. US 2025 shown without a loss ratio: endorsements are still settling.
